PRESYNAPTIC MODULATION OF POSTSYNAPTIC RECEPTORS IN MENTAL DISEASES[a]

Editor

ANDRE I. SALAMA

CONTENTS

In Memoriam. Sidney M. Hess. *By* SYDNEY SPECTOR vii

Introductory Remarks. *By* ANDRE I. SALAMA ix

Regulatory Mechanisms of Dopamine Biosynthesis at the Tyrosine Hydroxylase Step. *By* MENEK GOLDSTEIN 1

Presynaptic Alpha-Adrenoceptors in the Central Nervous System. *By* MARGARITA L. DUBOCOVICH 7

CNS Dopamine Autoreceptors: Distribution, Pharmacology, and Function. *By* ROBERT H. ROTH 27

Biochemical Characteristics and Regulation of Brain α_2-Adrenoceptors. *By* DAVID C. U'PRICHARD 55

A Comprehensive Method for the Quantitative Determination of Dopamine Receptor Subtypes. *By* PAUL MCGONIGLE, RITA M. HUFF, and PERRY B. MOLINOFF 77

Desensitization by Antidepressants of Central Norepinephrine Receptor Systems Coupled to Adenylate Cyclase. *By* F. SULSER, D. D. GILLESPIE, R. MISHRA, and D. H. MANIER 91

Autacoids for Drug Receptors: A New Approach in Drug Development. *By* M. L. BARBACCIA and E. COSTA 103

Serotonergic Function in the Affective Disorders: The Effect of Antidepressants and Lithium on the 5-Hydroxytryptophan-Induced Increase in Serum Cortisol. *By* HERBERT Y. MELTZER 115
